WALLASEY GOLF CLUB

“I do not think I have ever seen a course on which the contour of the hills and valleys was so infinitely picturesque”

BERNARD DARWIN,
GOLF COURSES OF THE BRITISH ISLES

Founded in 1891, our initial course was designed by Old Tom Morris with many original greens that remain unchanged to this day.

During our history we have continually enhanced the layout as host to several professional & amateur events and we look forward to hosting the English Amateur in 2025 with Royal Liverpool.

In 1931, Dr. Frank Stableford - a Wallasey member - had the idea for a more forgiving points-based scoring system after a poor start in a club competition on the second hole where his card was all but finished.

His creation gave hope to club golfers around the world for years to come and it is a proud part of our history.
